PRT ROTARY ARM SERIES

SEMI-AUTOMATIC STRETCH WRAPPING MACHINES

FILM COST SAVINGS

- Multiple wrap cycles apply film only where required.
- Separate up/down speeds save time and up to 10% reduction of stretch film costs.
- Separate top/bottom wrap selections eliminate wasted revolutions of film.
- Film saving Logic eliminates film waste.

SAFETY MEASURES

- Easy-threading door for safe film access and reloading.
- Emergency Stop obstruction system for arm rotation.
- Auto shut-off sensor on Pre-stretch carriage

MAINTENANCE WISE

- Ring Bearing Technology used on gun turrets and tanks has been transferred to our PRT 2150 & 2200 class of wrappers.
- Maintenance-free carriage guide wheels eliminates binding.
- Lifetime Warranty on Pre-stretch Rollers.

DURABLE DESIGN

- Rotation Encoder design allows for cycle start and stop anywhere in the rotation.
- Externally mounted carriage provides easy film loading access.
- Meets all Cdn & US standards with cUL Approval.

NOTHING BEATS THE BEST IN CLASS!

Larger:

Equipped to handle up to a 56" x 56" max. load capacity (58 x 58" on PRT-2200)... the largest in its class.

Faster:

With the fastest wrapping speed in its class, wrap more loads... faster.

Built to last:

Combining smooth, quiet operation with a structural steel design results in a bullet-proof workhorse that wraps day in and day out.

BIGGER, HEAVIER & FASTER.... BEST IN CLASS !

GENERAL SPECIFICATIONS

	2100	2150	2200
Wrapping Speed	12 RPM	14 RPM	15 RPM
Load Diagonal	73"	80"	82"
Arm Support Bearing	Flange	Ring	Ring
Load Weight	Unlimited	Unlimited	Unlimited
Load Height	Up to 80"	Up to 80"	Up to 80"
Wrap Tension	Variable	Variable	Variable
Power Requirement	120 Vac 15Amp	120 Vac 15Amp	120 Vac 15Amp

Controls

3 Wrap Programs	Wrap Up & Wrap Up/Down, Top Cover Pause
Up/ Down Speeds carriage	Separate
Top & Bottom Wrap Counters	Separate 1-9 count
Reinforce wrap option	Included

Warranty

3 years-All Parts / 10 years-Frame
Lifetime warranty on Pre-stretch Rollers.
